

The Lightweight & Efficient Application Protocols (LEAP) Manifesto

April 9, 2013

About The LEAP Manifesto

The LEAP Manifesto is organized as a series of largely independent articles. Each of these articles stands on its own, and can be read and understood independently of the others. Together, these articles provide a complete picture of the Mobile Messaging industry and the role of the LEAP protocols. Since each article is intended to be self-contained, some material is duplicated in more than one article.

The complete LEAP Manifesto is available in several alternative formats:

[\(ONE-HTML\)](#) [\(SPLIT-HTML\)](#) [\(PDF\)](#) [\(PS\)](#) [\(Text Only\)](#)

The LEAP Manifesto consists of the following articles:

- **Executive Summary.** An overview summary of the entire LEAP Manifesto. The Executive Summary provides a brief description of all the major elements of the manifesto.
