## **A Component of *The LEAP Manifesto***

This article is one of a series of articles describing various aspects of the Mobile Messaging industry and the Lightweight & Efficient Application Protocols (LEAP) protocols. For the complete collection of articles see *The LEAP Manifesto* [2], available at

<http://www.LeanForum.org/LEAP/Manifesto/roadMap/index.html>. *The LEAP Manifesto* is also available at the Free Protocols Foundation website at

<http://www.FreeProtocols.org/LEAP/Manifesto/roadMap/index.html>.

**Contents**

**List of Figures**

**List of Tables**

All the technologies, products and services required to implement LEAP-based messaging solutions are complete and ready to go. LEAP is not vaporware; it is real and available for implementation *now*.

Anyone who is interested in LEAP is invited to try a hands-on demonstration for themselves. All the components required to allow anyone to try out our products and services are in place. For complete details, see the announcement entitled:

Announcing Free Availability of  
Neda Communication Inc.'s  
Enhanced Two-Way Paging (ETWP) Products and Services  
For WindowsCE Hand-Held PCs  
over CDPD and Wireless IP

Neda-ETWP-wce-gold-1.2

June 12, 1998

This announcement is available at  
<http://www.neda.com/products/Neda-ETWP/gold-1.2/wce/announce/announce.html>[1].

This announcement provides complete information about EVERYTHING that you need to turn your WinCE device into a fully functional Mobile Messaging device. Specifically, it describes:

1. Buying a CDPD modem and getting a CDPD account from your cellular service provider.
2. Configuring your WinCE device to work with your CDPD modem.
3. Getting an Enhanced Two-Way Paging (ETWP) account from Neda.
4. Loading Neda's Enhanced Two-Way Paging product into your WinCE device.
5. Sending and receiving messages.
