

# Announcing Availability Of RFC-2188 (ESRO) ATT/Neda's Efficient Short Remote Operations (ESRO) Protocol Specification Version 1.2

September 9, 1997

The protocol specification for Efficient Short Remote Operations (ESRO) is now available in text format at the online RFC libraries and in [postscript](#), [PDF HTML](#) and [TEXT](#).

The online RFC library entry is:

RFC 2188:

Title: AT&T/Neda's Efficient Short Remote Operations  
(ESRO) Protocol Specification Version 1.2  
Author: M. Banan, M. Taylor, and J. Cheng  
Date: September 1997  
Mailbox: <http://mohsen.banan.1.byname.net/ContactMe>, [mark.taylor@airdata.com](mailto:mark.taylor@airdata.com),  
[jcheng@airdata.com](mailto:jcheng@airdata.com)  
Pages: 57  
Characters: 118374  
Updates/Obsoletes: None

URL: <ftp://ftp.isi.edu/in-notes/rfc2188.txt>

URL: <http://www.esro.org/documents/baseProtocols.html>

This document specifies the service model, the notation and protocol for Efficient Short Remote Operations (ESRO). The ESRO service is similar to and is consistent with other Remote Procedure Call services. The emphasis of ESRO service definition and the ESRO protocol is on efficiency. ESRO is designed specifically with wireless network (e.g., CDPD) usage in mind.
